

# SQA IS THE WORLD LEADER IN ASSESSING, MONITORING, AND IMPROVING SUPPLY CHAIN PERFORMANCE

## What We Do

Companies come to SQA in quality-critical industries to utilize our global footprint

SQA partners with manufacturing clients for audits, engineering, and inspection programs

## Industries We Serve

Aerospace  
Defense

Pharmaceutical  
Personal Care  
Medical Device  
Biologics

Semiconductor  
Electronics

SQA keeps the world safe through the lens of product quality solutions

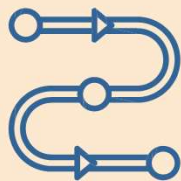

## What Sets SQA Apart

### Global Footprint

Our global team of quality experts can speak the language and be on site quickly.

### Program Approach

SQA has dedicated teams with specific roles based on program optimization, built to work seamlessly together and make each program a success. This includes Associate Development, Program Management, Content Management, and more.

### Flexibility

SQA is proud of our ability to innovate and adapt as each year brings new challenges. The 2020 COVID-19 pandemic led us to accelerate the development of our remote auditing tools, so clients can now remotely assess their supply chain without sacrificing the quality and rigor of on-site audits.

### Technology

SQA's secure operational management system, STEPQ, provides real-time visibility and control of all SQA's activities for clients, suppliers, and quality professionals around the world.

## By the Numbers ANNUALLY

3,000  
Audits

1,000,000  
Parts Inspected

40,000  
Engineering Hours

1,000  
SQA Associates

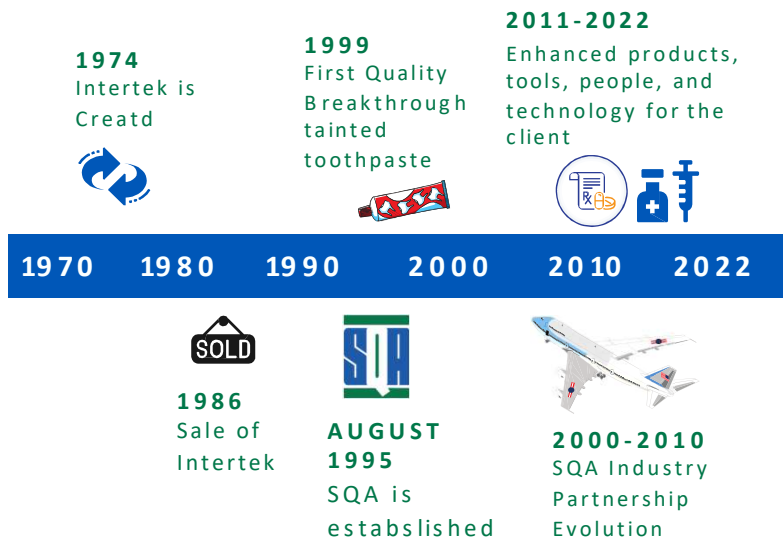

90  
Countries

100  
Partnerships

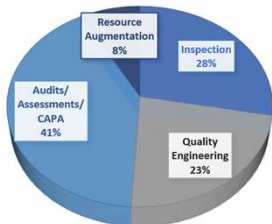

## SQA's Quality Heritage

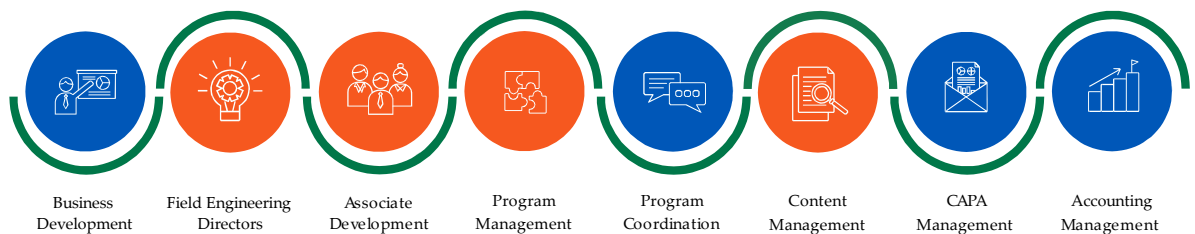

## Solutions for Today

Here's How We Help:

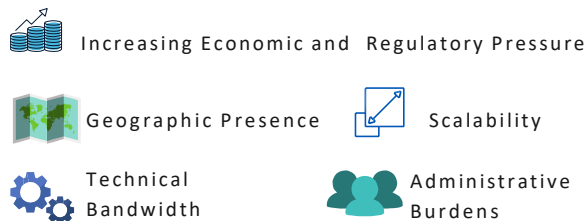

QUALIFY	MONITOR	EVALUATE	ANALYZE	REMEDiate
<ul style="list-style-type: none"> <li>Qualification audits</li> <li>Part approval (APQP)</li> <li>Readiness activities</li> </ul>	<ul style="list-style-type: none"> <li>Source Inspection</li> <li>Containment Response</li> <li>First Article Inspection (FAI)</li> </ul>	<ul style="list-style-type: none"> <li>Managed audit programs</li> <li>Desktop evaluation management</li> </ul>	<ul style="list-style-type: none"> <li>Process validation</li> <li>Product and special process assessments</li> </ul>	<ul style="list-style-type: none"> <li>Supplier CAPA management</li> <li>Supplier development and recovery</li> </ul>

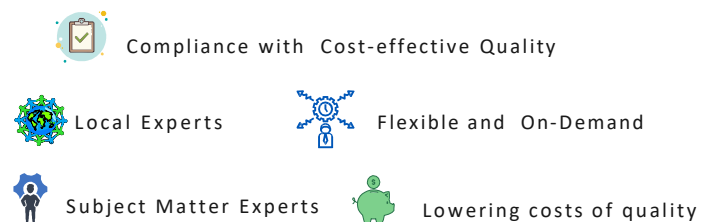

## Planning for Tomorrow

### CHALLENGES

### SOLUTIONS

SQA's culture of continuous learning and improvement makes us uniquely prepared for any challenge that comes our way. Whether it's diversifying clients so that no single client makes up more than 10% of our business or developing state-of-the-art remote audit tools so that clients can remotely assess their supply chains amid extreme environmental conditions, SQA is confident that our strategic planning will enable us to continue growing and exceeding our clients' expectations for many more years to come.
